Equip to Lead Testimonials

“This was an outstanding program! I love how we were introduced to an activity, we were shown an example and then had the opportunity to practice and apply immediately. I plan to encourage more of my participants to go through the program and look forward to seeing the outcomes.”

“I really took a lot away from the small group teaching practice sessions. I learned how I can introduce KLC and the principles in a very short amount of time. I liked how each person in my group made their presentation meaningful to their situation, and I learned from both giving and receiving feedback.”

“This was helpful. Definitely the second visit ‘solidifies’ some of the concepts and ideas. I feel much more confident in using and teaching these concepts.”

“Thank you for offering this class! I feel much more confident in the content, and I can start to figure out, “What am I going to do with all this knowledge?””

“I finally have a way to tie Your Leadership Edge Online and teaching the competencies in a useful way. I have struggled with both for couple of years now, but now I feel like I can move forward in a meaningful way with my organization. This program is a great and needed tool for facilitators of all sorts. The possibilities now seem endless.”
